

Dear Parents of Intermediate Students,

Mother Seton School will soon be finalizing the creation of a makerspace in school. What is a makerspace? In simple terms, it is an area that allows for creativity and innovation to occur so that students can engage in learning experiences that allow them to make real life connections and solve real world problems. For example, within this makerspace our students will have the freedom to design, code, engineer, fabricate, create, build and collaborate. Makerspaces provide students with a place to tinker and develop something that may not have been possible to create without a space with resources.

Our makerspace will be starting as an after school club for intermediate students. We are excited to bring this opportunity to our students, but in order to complete the task of supplying the space, we are still in need of several items to be donated to the space. If you are able, we would be so appreciative of any donation that you are willing to provide.

Items that we are looking for include:

Cardboard	Clothespins
Duct tape	Craft sticks
Scotch tape	Glue and glue guns
Masking tape	Beads
Painter's tape	Scissors
Electrical tape	Crayons
Empty toilet paper and paper towel rolls	Rulers
Fabric	Pencils
Felt	Markers
Ribbon	Playdoh
Small recycled plastic and glass containers	New batteries all sizes
Pom poms	Copper foil tape
Feathers	K'nex
Pipe cleaners and chenille sticks	Cleaning supplies - wipes, paper towels
Aluminum Foil	Disposable plastic tablecloths

3mm 5mm LED Light Emitting Diode Lamp Diffused Assorted Kit (White Yellow Red Blue Green)

Please send any materials that you would like to donate to school (in care of Mrs. Beard) **by November 20th**. Thank you so very much for your support of Mother Seton School.

Sincerely,

Mrs. Beard
